

Dakotans Locked In Thula's Icy Grasp

Trains For St. Paul Buried in Snow—Every Wheel Stopped and Fuel Famine May Cause Loss of Life

Bulletin Special.
St. Paul, Minn., Jan. 11.—According to railroad officials, North Dakota is now experiencing one of the heaviest snowstorms in history. Never have trains had such difficulty in getting through the state. The snow banks in some places are so high that some trains are completely snowed over and trains are from twenty-four hours to two days late. One train, No. 2, which was due at 10 p.m. Wednesday,

is expected to reach St. Paul for another day. There are two trains which were due yesterday that are reported indefinitely late. On the Northern Pacific there are several trains which have been delayed 24 hours or more. A terrific snowstorm has been raging all day from the international boundary to Central Iowa and railroad men fear a coal and fuel famine, which may cause loss of life.

WESTERN MEMBERS WANT REDUCTIONS

**Claim There is Anomaly in Rating of
Thresholds and Engines When
Imported Separately**

Ottawa, Jan. 11.—The western members in the house are asking for a change in the system of levying duty on imported outfits. When the outfit is shipped complete the tariff is 20 per cent, but if an engine be imported by itself the duty is 27 1/2, and on a separator imported by itself the duty is 25. The westerners claim that this is an anomaly in the tariff which needs revision.

The discussion of the tariff resolutions occupied most of the time today. There were 22 items out of 711 passed without change.

Mr. Aylesworth has introduced his bill to ban the exportation of electric power at Niagara Falls.

The Fisheries Bill, which provides for the inspection of canned food, produce, meats and fish was advanced

ed a stage today, the balance of the afternoon being occupied with the tariff.

Ottawa, Jan. 11.—In the House today Hon. Frank Oliver introduced a bill respecting the surveys of public lands. The object was to separate the surveys from the Dominion Land Act. Mr. Aylesworth introduced his bill to regulate the exportation of electric power, and certain liquids and gases. The terms of the bill have already been published. The bill, he said, was one which should not create the slightest apprehension on the part of property holders. The producer naturally wanted to sell in the most favorable market. There was a good local market within the limits of our country, and the producer could get a fair price for his products. It was not a detriment to him that he should look to the country in which the commodity is made for a market. Mr. Aylesworth's commission had approached the question of water power at Niagara Falls in a very broad spirit and the United States government. A statement of the revenue and expenditure of the Dominion has been issued by the finance department.

Hudson Bay Stores Have Narrow Escape

Winnipeg Branch Threatened With Complete Destruction by Fire Last Night

Bulletin Special.
Winnipeg, Jan. 11.—The Hudson's Bay stores here had a marvelously narrow escape from total destruction by fire tonight. As it was, the damage done by fire, smoke and water will be tremendous, but could not be estimated with any degree of accuracy tonight. Fire broke out in the hardware department cellar, which is situated in a basement in the center of the block occupied by the store. Whether it was due to faulty wiring or to spontaneous combustion is not known. However, when the firemen arrived, the flames had made a strong start. Several barrels of oil and packages of

points and varnishes had caught and were rolling forth volumes of black smoke which rendered it difficult for the men to locate the seat of the trouble. Working through area windows and down a couple of small stairways, several streams of water were put into operation. Just as the men began to think that they had the flames under control, a barrel of oil burst, spattering its contents over a wide area, and soaking the clothing of some of the firemen. Instantly the explosion was followed by a sheet of flame, which seemed to threaten them with destruction, but they retreated slowly, fighting back the fire with the water from the hose. Additional streams were put on, and the fire was finally checked, but the water which the building had been filled with smoke. Within a few minutes more start nothing would have saved the whole block from destruction.

LUMBER COMPANY FOR PRINCE RUPERT

Incorporated at Ottawa of Large Concern to Go into Lumbering in the West

Bulletin Special.
Ottawa, Jan. 11.—A company with \$500,000 capital has been organized and incorporated here to transact a lumbering business under the name of the "Prince Rupert Timber and Lumber Company." Among the organizers are E. H. Moore and Geo. H. Roebuck, two prominent Ottawa lumbermen, W. W. Dwyer, merchant, of this city, and E. E. McCracken and Alexander Flood, manufacturers, all of Ottawa. Jas. H. Sanderson, lumberman, Frederick C. Baker, merchant, A. H. Woodman, agent, all of Prince Rupert, and John H. Lamont, of Regina, are the other incorporated.

SENT UP TO THE HIGHER COURT

Winnipeg, Jan. 11.—One of the most interesting and important cases that has ever been tried in the courts of this province and certainly one that has been far reaching in its effects, was concluded yesterday before a little crowd of spectators, an imposing body of counsel and a corps of newspaper reporters. The case of *Daly, K.C., stipendiary magistrate of the city of Winnipeg, delivered a careful summing up and finding in the alleged grain trade combine case under section 601 of criminal code. Mr. Daly announced that he did not find the defendants guilty. John Love, J. C. C. C. and J. G. McHugh, either guilty or innocent, but refused the case to the higher court for further reference.*

Canada's Enormous Surplus

**Revenue Exceeds Expenditure for Year Just Closed by
Seven Million Dollars**

Ottawa, Jan. 11.—(Special to the Bulletin)—The statement of revenue and expenditure of the Dominion for the six months ending December 31st, was issued by the finance department today. The revenue was \$43,694,716 as compared with \$37,877,167 for the same time in the previous year, an increase of \$5,817,549. The expenditure was \$24,685,166 over one million less than for 1905 so that there was a betterment of nearly seven millions. There was an increased revenue in every branch the public service, the customs alone showing three millions.

On capital account there was an expenditure of over \$6,000,000, about half a million greater for the same time in 1905.

and decision, admitting them to bail in their own recognizance for \$1,000 each and two securities of \$200 each, Phillips and G. V. Hastings and on their bonds. His worship made this decision on account of the high standing in the community of both informants and accused, and also realizing tremendous interests each had at stake in the matter, viz., grain producers of the west on the one side and the most important grain market in Canada on the other. During the afternoon the time of the court was occupied mostly with the production and filing of documents, about a hundred being placed on the files of the court. Discussions on relevancy of the same to the charge and the rights of the press to same also, occasioned a few passages-at-arms between the special pleaders. C. N. Bell, secretary of the Winnipeg Grain and Produce exchange, was recalled and P. O. Fowler, of the Northwest Grain Dealers' association, also, but the case was not examined, the address of the counsels commencing about 4 o'clock. As usual, A. A. Bonner appeared for informant, D. W. McCuaig, Hon. F. W. G. Haultain for the Alberta and Saskatchewan Grain Growers' association, E. A. Anderson for the Provincial Government, A. J. Andrews for John McHugh, N. F. Magel, K.C., for John Love, and J. C. C. C. and Thomas Robinson watched the proceedings.

Pennsylvania Proposes Bond Issue So Large and Widespread That Professional Traders Gasped.

Bulletin Special.
New York, Jan. 11.—The announcement of an intended issue of additional capital by the Pennsylvania Railroad Company to the extent of \$100 millions in bonds and 100 millions in stock, shocked speculative sentiment in the stock market today. Pennsylvania shares sold down four points from yesterday's close under enormous unloading, beginning with 15,000 shares at the opening and selling in individual blocks later up to 30,000 shares. St. Paul, Atchafalaya, Northern Pacific and Baltimore and Ohio were most actively bid down. The break involved professional trading and speculative ordinary investors, but caused a substantial rally during the first hour, which was followed by quieter trading during the afternoon.

C.P.R. HIGHEST ON THE BOARD.
The stock market opened strong this morning, and continued bullish throughout the session. All issues showed an advance of from 1/2 to 2 points. The banker's statement was healthy. C.P.R. stood the highest issue of the block throughout its session.

WRECK ACCIDENTAL

Coroner's Jury Declares on Kaminitish Shipwreck.

Bulletin Special.
Fort William, Jan. 11.—At the coroner's inquest which was held last night to ascertain the cause of death of Harry Smith and Kenneth Campbell in Kaminitish wreck on Sunday last, the jury returned a verdict of accidental death by oversteering of the car in which the deceased were riding, caused by a broken rail.

DANGEROUS BLAZE ON THIRD STREET

Robert Lee Block Body Damaged This Morning—Second Time Within Past Year

The frame block belonging to Robert Lee on Third street, opposite Robb's, was the scene of a hot blast this morning which broke out in the Capital Panatorium. Gasoline was the cause. The gasoline was in a vessel containing some clothes that were to be cleaned, which became ignited. The flames spread over the entire room, and burst out the front window. When the firemen arrived the flames were belching out of the back door and windows. It took but a few seconds to get the fire under control.

The other offices in the block had a scare. The occupants succeeded in removing most of the office furniture and effects.

The Panatorium belongs to Mr. Carl Henningsen, who says that the fire has not stopped him from doing business. All the men's clothes were saved, and will be delivered today as usual from the East End shop.

This is the second fire in this block within the last year.

THE MÄRLBOROUGHS RE-CONCILED.

London, Jan. 10.—The Throns says: "A reconciliation has taken place between the Duke and Duchess of Marlborough, and on Boxing day (the day after Christmas) they came together again. King Edward has extended the area of his influence and his functions as peacemaker, and has been chiefly instrumental in effecting the reconciliation. There were faults on both sides, but some of omission and commission have been mutually forgiven."

Bank Clerks Drugged Police Not Wanted

Mysterious Happenings at Logan Avenue Branch of Canadian Bank of Commerce

Bulletin Special.
Winnipeg, Jan. 11.—What is believed to have been a daring attempt to rob the Logan Avenue branch of the Canadian Bank of Commerce, was perpetrated this afternoon. At 1:30 o'clock a customer entered the bank and found two of the employees, Roland M. Lyons and W. H. Berger, lying on the floor in an unconscious condition. Medical aid was at once summoned. When it arrived it

we found that the clerks had been drugged. One of them was in a dangerous condition, and was removed to an infirmary, but the other recovered shortly after this administration of stimulants and the use of a stomach pump had been resorted to. The bank officials have withdrawn the case from the local police and refuse to make any statement as to whether anything has been stolen. They are attempting to keep the affair shrouded in mystery.

DARING PLOT TO LIBERATE QUAKENBUSH

Famous Criminal in Kingston Penitentiary Has Friends Who Planned His Escape

Bulletin Special.
Toronto, Jan. 11.—(Special to the Bulletin)—A plot to secure the liberty of Chas. Quakenbush, one of the most daring criminals, committed from this city to Kingston penitentiary, has just been unearthed by County Constable John Brown, who has given Warden Platt and the prison officials warning of plans for the escape. It was planned to liberate Quakenbush so soon as the St. Lawrence river at the site of the penitentiary was frozen over. Two or three people from this city were implicated and information in the possession of the authorities is correct, some of the prisoners on the coal pile as well as a noted jail breaker, had a hand in the plot.

LACOMBE WINS BY SINGLE GOAL

Seniors Beaten Away from Home Last Night, 5-4; Return Game Thursday

Lacombe had a shade the better of the play in the home match, with the Edmonton Seniors last night at Lacombe and pulled out a victory by a score of 5-4.

In the first period Edmonton showed up well and finished the half with a lead of 2-1, but Lacombe came along strong toward the close, netting up four goals to the visitors' two. The game was a good one to look at. The play was fast and clean all the way through, and very few players were penalized. The Lacombe line-up was the same as when they defeated Stratford the week previous. McKinnon is Lacombe's return game, but the judge of play was omitted.

After the match the teams adjourned to the hotel, where a supper was served and the two teams and their supporters fraternized for a couple of hours. It is expected the return game will be played at Edmonton on Thursday.

Storm King Reigns In Southern Alberta

Worst Storm of the Year Raging at Medicine Hat—C. P. R. is Out of Coal

Bulletin Special.
Medicine Hat, Jan. 11.—The worst storm of the year has been raging all day at Medicine Hat and that the blizzard extends as far east as Saskatchewan is evidenced by the fact that no trains have pulled in from that direction for the past sixteen hours. The west end of the Crow's Nest line is in very bad shape. Jamieson was in Frank yesterday and announced that the company had not enough coal on hand to do them 24 hours. Several trains in the vicinity of Frank are stalled and the trains sent to their assistance have also become blocked. The situation in regard to coal is shown by the fact that a number of cars filled to the Canadian American Coal Company at Frank where the people are short of fuel, were confiscated by the railroad company simply because it was impossible for them to carry coal to the point until they had fuel to keep their engines going.

Lethbridge, Jan. 11.—Southern Alberta today the price of the storm king. About midnight yesterday's friendly Chinook petered out, and the storm descended from the mountains, and spread rapidly eastward. Both the Crow's Nest branch and the line of the A. R. and C. companies were hit hard, and the storm lines while last night they reported everything clear. The weather hardened very quickly, and the net result will be undoubtedly that the whole will be further from rain grass than ever. The storm shatters the hopes of the cattlemen, who now admit that the mortality on the snowbound ranges will be heavy and costly. The winter has already proved itself the severest for years, and the snowfall breaks the record for recent years. Should the winter maintain its present character the balance of the season it is safe to say that the ranges will be almost denuded of cattle. Such an uncommonly severe winter, however, is hardly to be expected.

Around The City.

-Starting this evening in the Thistle rink.

-A Canadian Club is being organized in Calgary.

-The Bill held a meeting last evening in the Thistle rink.

-Tom Marlin will close a successful two weeks' engagement at the Edmonton opera house tonight.

-Mr. Corbett L. Davis has changed his office from the Northern Bank building to the Crystal block.

-F. F. Teller of Cullington, Ont., member of the firm of Teller Bros. is at the Alberta.

-The Juvenile Societies will open a new season at the Edmonton opera house on Monday night.

-The students of Alberta College will resume the much postponed term in this assembly room at the college.

-The firm of Munger & O'Brien, the painter and decorator, has been changed to Munger & O'Brien is now out of the business entirely.

-The late musical club met this afternoon at the home of Miss J. V. McLaughlin, Third street, at 7 o'clock. The subject was Brethren.

-A meeting of Beaver House chapter of the Imperial Order of the Daughters of the Empire, will be held at the home of Mrs. Mercer, Fourth street, on Monday afternoon, at 3 o'clock.

-J. W. Adair, late of the Winnipeg Free Press and one of the fastest men in this far west has joined the Bulletin staff and will judge the machine on the newspaper end.

-The McKay amateur school hockey team downed the junior high school aggregation decisively this morning on the high school rink. The half-time and final scores were 2-0.

-The Edmonton Canadian Club will have their originally intended on Monday at 3 p.m. President J. A. McDonald will deliver an address on "The Early Days in Edmonton."

-The Temperance and Moral Reform committee have asked the city clergy to read the above lines from the pulpit on Sunday evening. The committee intend to submit several resolutions to the legislature this session.

-Mrs. and Mrs. W. S. Hurst, formerly of Woodstock, Ont., have taken up their abode at the Syndicate Hotel, corner of 14th and 15th streets. Mrs. Hurst will receive on Monday, Jan. 14th and on the second Monday of following month.

-The members of Friendship Lodge L.O.O.F. will assemble at the Oddfellows Hall, Newwood Block on Sunday, Jan. 13th at 2 p.m. to receive "honorary" members. Mr. F. M. Mawer, from his residence Curry Street down on the flats.

-Mr. J. Halstead, assistant general freight agent for the C. P. R. at Calgary, is in town today. The company are experiencing considerable trouble in operating trains, owing to low and cold weather, though the trouble is worse in Manitoba than Alberta. C. & B. traffic would be greatly helped if the Saskatchewan shops were in readiness to thoroughly overhaul engines. Overhauling in business on the Prince Albert line the C. P. R. being completed. It has issued orders to forward on fuel and coal to the shops for a long time back.

HOSPITALS FILLED.

No body of workers in the city are more busy than the hospital nurses at the various hospitals. The hospitals are all filled, and yesterday two of them were obliged to refuse four or five cases for lack of accommodation.

The nurses' work is from the gray morning hours when they come on duty until the night comes on, and for others, again through the long night. It is unvarying, faithful, gentle and perhaps nowhere more appreciated than in the case of the "man without a home" in very much in evidence.

The General Hospital has placed for patients, the Public Hospital, 25 and the Hawthorne, larger than these, accommodating 50. This last received night men came yesterday, but was obliged to refuse four. One case received was that of Mr. O'Neil, a farmer from Vermilion whose hands and feet were badly frozen Thursday night when he was out running up his horses.

At the Public Hospital several important operative cases have been received since the New Year. Yesterday a very serious operation was successfully performed on a child named Brad, seven years of age, by Doctors Peria and Macaulay. The operation over, the child is doing splendidly.

Mr. Adams was also admitted upon bed a few days ago, and has made excellent progress.

The General Hospital has received many new patients from day to day and will yesterday be obliged to refuse cases from cases.

ALBERTA POULTRY SHOW.

The officers of the Alberta Poultry and Pigeon Association are meeting last night in J. A. Stovel's hardware to arrange matters for the fourth annual exhibition which will be held in Edmonton on the 15th, 16th and 17th of February.

The executive have difficulty in securing suitable accommodation for the purposes of the exhibition. Rooms have been taken in the Stovel Block, corner of Queen's and 14th streets.

The executive will ask the department of agriculture to furnish a judge. It is probable that Geo. Woodford, Winnipeg, will get again this year. A. J. Bell, of Ottawa, will be asked. An advertising committee was also appointed consisting of Messrs. J. A. Stovel, Messrs. Foley and Watson.

During the days of the exhibition A. W. Foley, the poultry expert of the department, will be in the city. A series of addresses illustrated with lantern slides.

The executive will hold another meeting in Stovel's hardware next Friday evening. Tickets of membership can be obtained from J. A. Stovel, president, W. A. Wile, secretary, or from any of the officers.

An effort will be made to have the show at the auspices of the A. P. A. held on the same dates.

RUBY LANG

Who Plays Tender Lead with the Juvenile Stationers.

THE STORY OF DOROTHY.

Dorothy, the daughter of a wealthy, fox-hunting squire, down a peasant dress, and in the village inn serves the landlord's customers. She falls in love with a gentleman whose home has just a few days before been accompanied by a friend, who marries with her, and also falls in love with her lovers two, which the

BANQUET TO J. L. LESBARD.

The friends of Mr. J. L. Lesbard tendered him a banquet party last night at the Ritz Hotel. Mr. Lesbard leaves shortly for Athabasca Landing, where he will be in charge of the general store of Habet & Peron.

Mr. Lesbard was presented with an address and several valuable gifts. Speeches were made by several present including Mr. J. Macdonald, Mr. Leclerc, Solie Tetter, T. O. Nether, and J. A. Leclerc. The evening's festivity with a dinner.

MATINEE ICE RACES

Driving Club Holds Meeting at King Edward Hotel to Arrange Details.

In the absence of President Inglis, Charles Taylor presided at the meeting of the Driving Club at the King Edward Hotel last night. The meeting was held to arrange the racing with auto equipment and to discuss the details of the various horse races intended for the season's races. It was decided that the series of uniform speed will be given against the clock in the Grand arena. J. J. Robert and R. Mann were appointed to judge the judges and other officials for Saturday's races, the same for which must be made by Secretary Inglis before 1 p.m. Friday.

Merchants Bank

Of Canada

Established 1864.

SAVINGS BANK-DEPARTMENT.

Capital - - - \$6,000,000.00

Branches in the leading cities and towns in Canada and Agents in the leading cities of the world.

A GENERAL BANKING BUSINESS TRANSACTED AT ALL BRANCHES.

DUNCAN MARSHALL,
Manager.

SATURDAY, JANUARY 12, 1907.

CANADIAN PRUIT.

A British journal having approved Mr. Fielding's tariff as likely to increase Canada's trade in West Indian limes and oranges, the Hamilton Spectator is led to remark that "the gentleman who wrote it doesn't know whether or not this glorious 'country of ours produces limes and oranges or not.' Possibly so, but after receiving a marked copy of the Spectator the gentleman will have no doubt as to whether or not this one country produces pumpkins 'or not.'"

ADVICE FROM THE KENNY.

The Mail and Empire is worried over the selection of a leader for the Ontario Liberals and its chief concern appears to be lest the selection may engender strife among the provincial Liberals. The Mail could very probably devote a portion of its anxiety to securing a leader for the Dominion Conservatives. In doing so it need have no undue apprehensions of a rebellion in the ranks of the Federal Opposition for considering the present composition of that body it is extremely doubtful if more than one aspirant for the honor could be unearthed. As advice to its Ontario opponents the Mail suggests that "it will have to choose as a figurehead 'one of the present members, and 'will have to wait its chance.' Does the advice arise from the experience of the Mail's friends in the Federal House?

IT DEPENDS.

Various are the opinions of the Calgary Herald regarding irrigation projects and from present appearances the variety predominant at the moment appears to depend either on the composition of the company having the project in hand or the section of the country to be benefited by their operations.

The Herald with quite commendable enterprise published a few days since a two-column interview with the general manager of the Canadian Pacific Irrigation Colonization Company setting forth the aims, ambitions and performances of the company present and prospective, with calculations of the enormous farming population who would find homes in this at present unsettled district and graphically depicting the enormous trade development which Calgary would derive therefrom. The article was productive under a quite fitting heading:

A POPULOUS CENTRE.

IRRIGATION HELPS CALGARY.
Dense population on Irrigated Lands Will Make Calgary Big City and Build Up the Country.

The general character of Mr. Peterson's remarks may be gathered from his opening paragraph: "It is reasonable to suppose that our tract of 2,000,000 acres, irrigated and non-irrigated lands, will be divided into 'at least 15,000 farms, sustaining six individuals each, including hired help. This would make a rural population of 90,000. According to the 'last census the ratio of rural to urban population is as three to two, which would give an additional 'town and village settlement of 60,000, or a total population of 150,000.' Almost as great as the present total 'population of the whole province of Alberta will ultimately occupy the 'territory lying within a distance of 120 miles east of Calgary. Just ask 'any of the wholesale merchants or 'manufacturers here what such a development will mean to Calgary.'"

As indicated by the heading the opinion of the Herald as to the public benefits of the enterprise appears to coincide with that of the general manager of the company. As further proof of this conviction the Herald editorially puts the Canadian Pacific Irrigation Colonization Company approvingly on the back and in the course of a column of black letter laudations says among other things— "It will be seen from his remarks, and the magnitude of the intentions and actual operations of his company, that his organization is no two by four proposition, but one of the greatest advertising and development factors in existence in the west, if not on the entire continent.

The success of this company is the project for the settlement of an immense area of country clearly means the development of Calgary's business and industrial enterprises. The thousands who will be induced to come to this section of country by the methods of the company during the next few years, and their settlement on these lands, will tremendously extend this

city's operations and growth. "Mr. Peterson points out that the company must use every endeavor to influence new industries in the direction of Calgary in order to secure more ample markets for the settlers placed on its lands.

"Another point of interest which Mr. Peterson touched upon was that the company was responsible for the increase of the value of lands throughout the district."

All this of course is legitimate—both that the general manager of the company should claim that the settlement of the land will benefit Calgary and that the Herald should support his opinions and rejoice in the prospect. But in the jubilation over the prospect of Calgary through the operations of the Canadian Pacific Irrigation Colonization Company the Herald forgets that it has a record in the discussion of irrigation projects.

About a month ago the announcement was made of the sale of a large area of semi-arid land in the vicinity of Medicine Hat to an irrigation company on the same terms, subject to the same conditions and for the same purposes as similar land had been sold to irrigation companies previously. On that occasion the Herald strangely enough, was thoroughly convinced of the villainous nature of the transaction, assailed the firm of the land company, its authors, aims and performances in a manner which considered argument unnecessary and facts irrelevant. And whatever denunciatory vocabulary it had left after its onslaught on the company which undertook the project was bestowed as freely upon the project on the government which had permitted them to do so.

The rapidity of this conversion is truly strange. In fact the Herald could be nothing commendable; yet in the Canadian Pacific Irrigation Colonization Company's project it finds four points for approval: First, the enterprise is a large one; second, it will benefit Calgary's present business enterprises; third, it will induce new enterprises; and fourth, that the irrigation works will be responsible for the increase in the value of the land. All these grounds are doubtless well taken and it is to be hoped and expected that such will be the outcome.

But if these are good and desirable features of the project of the Canadian Pacific Irrigation Company why not so of the South Alberta Land Company's project? It too, is a large enterprise, promises to bring business in large volume to the business houses of the neighboring city and to multiply the number of its business enterprises, and quite as certainly the increased value of the land will be occasioned by the supply of water through the irrigation works.

When such project is undertaken by the South Alberta Land Company the Herald is moved to unqualified condemnation: when undertaken by the Canadian Pacific Irrigation Colonization Company the Herald is moved to the most enthusiastic laudation. When the project is undertaken to develop the city and district of Medicine Hat the Herald cannot find language strong enough to condemn the integrity of the scheme; when it is undertaken to benefit the city and district of Calgary the Herald exhausts its laudatory language to describe the innate and unquestionable virtues of the project.

It all depends on who is "the company" or where it operates.

The Store That Sells For Lowest Prices

A Few Lines of Furs We Are Clearing Out

We still have a few lines of Furs in stock, and as we do not care to carry things over from season to another we will give special bargain prices on any Furs left.

Prices of	Five	Bargain

A Page of Latest Fashions

EXCELLENT DESIGN FOR SHIRT BLOUSE.

There are three points about a shirt blouse which decide its success and there are its style, becomingness and material. The latter includes both texture and color and this must always be the choice of the wearer. The other characteristics are often combined and a waist which is noticeable for these qualities is sketched. The yoke of fanciful shaping is smart and trim looking. The groups of tucks

which regulate the fullness of the blouse are pleasing as are those in back which suggest taper of waist. The sleeves may be of the puff and deep cuff order or of bishop style with the narrow waistband. Any reasonable fabric may serve as material of which 3-5 yards 27 inches wide are needed in the medium size.

A SUPPLICE DRESSING JACKET.

There is a charm of ease about this tea jacket which invites admiration from the lover of the beautiful. The lines are long and graceful, while there is no over-elaboration to mar its simplicity. The jacket and skirt portions are laid in two deep plaits at

either side of front and back while the trim belt girdles the waist. The sleeves are of elbow length and the neck becomingly low in a V. Embroidered chaslis, silk or crepe de chine would be prettily made up in this way. For the medium size 5-1/2 yards 27 inches wide, are needed.

A MOST FETCHING APRON FOR AFTERNOONS.

No matter whether it is the mistress

or the maid who wears an apron, it should be pretty and becoming for

afternoon. A pretty one in dotted Swiss having ruffles of embroidered edging about the skirt portion and shoulder straps, is sketched. The belt portion is just large enough to protect the front of the bodice yet sufficiently small to be chic and becoming. The shoulder straps are fastened at the top of the belt and at the belt in back. Materials which develop this design prettily are plain mull, cross-barred muslin, sheer minkette and the material mentioned above. The pattern calls for 1-3/4 yards of 36-inch material in the medium size.

A DESIGN FOR LINGERIE FABRICS OR CLOTH.

A charming little gown which is not ostentatious yet excellent in style and practicability is shown. The front is tucked to yoke depth and thence falls free in a pretty fullness. A yoke in back forms a stay for the skirt portion which is shirred full at the top. The sleeves may be in full length or short puff, the latter being suitable for a dressy lingerie frock. The trim-

ming suggested in the drawing is in the form of narrow bands of insertion run lengthwise in panel effect in front and heading a ruffle which ends at either side of the front. The insertion also trims the neck, yoke and sleeve edges. A cloth or washing fabric may be used to develop this design for which 1-3/4 yards 36 inches wide are needed in the medium size.

A BOX COAT FOR A MISS.

The loose hanging coats are very becoming to slender undeveloped figures and one which is suited to home making is shown. The side front and side back seams are stitched in slant seam effect to the shoulders while

the front closes in double breasted fashion. The trim collar and lapels may be of velvet or the cloth stitched. This style of coat is very practical for the growing girl as it can be worn longer than the more closely fitted

TWO TASTES AND \$30 IN CASH. The first taste you like it. Use it 6 months, a year—the last taste proves it the most delicious part of every meal.

The finest wheat scrubbed, washed, steamed-malted, baked, treated into rich golden brown flakes that are crisp, dainty, satisfying. That is "Orange Meal." From kernel to table, no hand touches it. Machinery does it all.

Besides premiums you get THIRTY DOLLARS if you send in the largest number of coupons taken from the 1st package. "Orange Meal" contains more wheat sugars, the strength giving elements, than any other cereal. And each package of Orange Meal is a third larger than any other. Save the coupons and get \$30.00. Coupons must be mailed or delivered on or before March 30th, and must reach the office of "Orange Meal," Kingston, before March 30th, when the prize will be awarded.

ones. A chemist, broadcloth or cord may serve of which 1-1/2 yards 34 inches wide are needed for the medium size.

AN OUTFIT FOR THE BABY.

A pretty little set of dress, cloak and cap for the little one is shown for a suggestion to the mother who is fashioning such garments. Every little maid must have the fresh air and all that she can get of it for it is this and the sunbath which makes her grow. Warmth is a necessity with tender creatures and the cape has several advantages over the coat with sleeves because small arms do not easily go into sleeves and it saves

precious time and trouble to slip the wrap around the shoulders and fasten it in front as shown. For very young babies, this style is far better than the coat with sleeves as any mother will agree who has attempted to dress her baby for the outdoor trip. The cap may be finished with the ruffs or not and it may be as elaborate as a cape as desired. The dress is not fancy, having only a small round yoke and full sleeves. Cashmere, French flannel and broadcloth are used for cloaks, while silk or woolen material may serve for the cap. The pattern calls for 2-3/4 yards of 36-inch material for the dress, 2-1/4 yards of 34-inch for the cape and 1-1/2 yard of 30-inch goods for the cap.

HUDSON'S BAY COMPANY

MUNICIPAL 'PHONES FOR CALGARY.

Calgary, Alberta: At the meeting of the council on Monday night, Ald. Mitchell will ask that a committee be appointed to enquire into the cost of installing an independent telephone system into Calgary and to report to the council on the wisdom of the same.

Ald. Mitchell brought the matter before the council last year, but though some enquiries were made no action was taken. Ald. Mitchell is of the opinion that an up-to-date system could be installed for a moderate amount and that the history of the electric light plant would be repeated as far as maintenance is concerned. This city could place a system into the city at a cheap rate. Contrary to the general belief, a telephone company is forced to give rights over their lines.

Ald. Mitchell points out that the municipal system has often gone up against the Bell system and has usually won out.

Against the strongest kind of fight, the municipal system was tried in Fort William and have proved to be a great success.

There is little doubt but the committee asked for will be appointed and Calgary will have a municipal system at an early date.

HEARING GILBERT'S CASE.

The morning sitting of the court on Monday was occupied by the case of Regina v. Gilbert, the old man who was sentenced to death for the murder of a man named Henderson, near Regina. Gilbert's lawyer, Mr. Martin, raised three points which he wished to submit to the court on Monday regarding rulings made by Judge Newlands, who heard the case.

It appears that Justice Newlands in his charge to the jury told them that Gilbert must either be found guilty or murder or not guilty on the evidence. Also words used by the deceased were admitted as evidence. The words were used at two different occasions, once when Dick and Rose drove up to the Gilbert farm and were stopped by Henderson, who ran to them shouting that he had been shot by Gilbert, and that Gilbert was after him to shoot him again; and later when the wounded man was being taken to Regina, and was being attended from one place to another, he caught sight of Gilbert, he told him and he gave a great jump forward, and said, "Don't let him knife me" (meaning Gilbert).

SENATOR PERLEY'S SLANDER.

Alberta: Senator Perley did hard, having made a slanderous attack upon

in Alberta, he is going to stay by it to the end, at whatever cost. And to think of it, for years the same reason represented Alberta in the Dominion Senate.

He says that Mr. Craig told him that he was collecting evidence for the Alberta Government, when in Winnipeg of course. Mr. Craig told him no such such thing, because he was not in the employ of the government and besides Mr. Craig says quite positively that he made no such statement.

In the second place this report slanders the province of Alberta by reflecting upon the statements of a man in a position who show that our oats are superior to those in other provinces of Canada. He makes these allegations on the strength of the fact that a man, whose name is not stated, told him once that some years ago some oats were grown in Edmonton which were not up to sample.

These are the facts. The conduct of Senator Perley is shameful. He went out wilfully, intentionally, and maliciously to slander the province. He has proved a second time that he is no friend of Western Canada. The excuse which he gives for his wantonly conduct is much worse than the original offence.

It's the Byron Co.

that makes the half-tone and line cuts used in the Bulletin. 623 First St., P. O. Box 830.
